Ms Jean van der Meulen

TO WHOM IT MAY CONCERN

Since the time of the First World War Van Schaik Publishers have been a well-known and respected Publishing House, producing books and publications of a high standard.

When Ms Jean van der Meulen offered her services in the early days of Desk Top Publishing we were very cautious in trying out “newcomers”. However within a short time Jean emerged as our Number 1 typesetter and served us with excellence for more than three years.

Acquiring the knowledge, feel and understanding of the publishing environment as a specialised field are the prerequisites of a successful relationship. Her pleasant disposition and ability to overcome problems made her an important contributor to the good performance of the publishing team and our company.

We do wish her success in the future.

With much appreciation and best regards

Ernst Schlatter
